

MSU WorkLife Office Departmental Collaborations

The WorkLife Office partners with the community to create an inclusive, responsive work environment where all faculty and staff are respected and supported toward well-being in work and personal lives. In keeping with that mission, the WorkLife Office works to connect with many other campus units to provide seamless, one-stop access to multiple resources in order to meet your needs. Below is a partial listing of our key collaborators and we welcome the opportunity to connect with others whenever possible. If your unit would like to work on a project together, or make us aware of a service or resource to which we can point faculty and staff for support, please let us know! Email worklife@msu.edu or call (517) 353-1635. *Click on the office titles in the diagram to be directed to their website.*
